Acacia Releases 3D Modeling & Animation Tools Study

June 21 2004
<http://www.acaciarg.com>

Acacia Research Group is proud to announce its latest market study, 3D Modeling & Animation Tools 2004, a comprehensive study providing the most up-to-date information available anywhere. This 63-page report features 50 tables and figures of essential industry data, including 5-year forecasts for revenue, units, ASP and installed base of:

- * Professional 3D software
- * Prosumer tools
- * Plug-ins

Forecasts for education seats and service revenues, which have become increasingly important to the industry, are also covered in this report.

Although the past couple of years have been tough for everyone in the industry, some 3D toolmakers are beginning to reap the benefits of their most recent market strategies. This study analyzes those strategies to provide you information on who will be leading the market over the next few years... and who is likely to find themselves niched out of the mainstream.

About Acacia Research Group

Acacia Research Group provides timely and accurate business intelligence to decision makers across the high technology industry - covering sectors ranging from consumer electronics to 3D software to visualization and simulation. Acacia's products and services include timely, data-driven newsletters, in-depth market studies, concise business and technology briefs, free and ticketed events and executive forums, periodicals, and custom consulting. With everything we do, our goal is to help you succeed in the competitive technology marketplace of the coming decade.
